Altered from genuine fives.

ENERSON ON SUCCESS .- In his lecture or "Success," Ralph Waldo Emerson says: "Respect the excellency of your work, not its availableness. There is too much job work in some lives. Do your work; it is clownish to insist on doing everything; do what you can do best. It may be accepted as a maxim that society can never prosper, and must become bankrupt upless each does what he was made to do, and says what he was created to say."

ADULTERATIONS OF TOBACCO.-- Dr. Le Comte, ADULTERATIONS OF TORACCO.—Dr. Le Comte, of Philadelphia, states that nearly all tobacco of inferior quality is tinetured with liquories and molasses, to modify the taste, and rhubarb, sun flower, cabbage and burdook leaves are prepared with a solution of refuse tobacco and wine, or more frequently a less expensive but more musty preparation, to give them a tobacco flavor.

ANOTHER OF THE HERALD'S PALESHOODS The London correspondent of the New York Herald states that one million of dollars had been set apart by the British Government to influence the next Presidential election in favor of an anti-slavery candidate. THE FRENCE IMPERIAL STABLES .- The principal portion of the French Emperor's stud has just been installed in the buildings of the new Louvre, where, on the side toward the quay, in the Cour du Vieux Louvre and the Cour Henri III, every accommodation has been provided for ninety horses, with coach-houses, a riding-school, and every necessary dependence. The stables are arranged on the most approved system, and all the fixtures and fit-ings are both ornamental and perfectly adapted to their purpose. The partitions of the stalls are carved oak, the racks bronze, the mangers marble and the chains steel. The columns are covered with a new kind of stucco, equal to marble for smoothness and polish. In the Cour Henri III there is an iron staircase, of a very gentle slope, by which the horses go up to the riding-school, situated on a level with the picture gallery.

THE PURCHASE OF A DUCAL THRONE. - The Piorence correspondent of the Providence (R. Florence correspondent of the Providence (R. I.) After the Congress, which is to decide in his favor, this money is to be scattered among the Tuscans, and with it oblivion of all past sins is to be purchased.

THE CUSTOM OF BURYING IN CROSS-ROADS The practice of burying in cross-roads has in modern times been regarded as a mark of indignity; but such was not its original intention. Lawaence, Mass., Jan. II—P. M.—If we could but forget the occasion of our crowded streets, we should at once conclude that some great occasion or a gain day had strived, but the air of sadness and almost despair so visibly depicted on the countenances of our citizens, keeps the dark reality constantly before our minds.

Every train from every direction comes in laden to its utmost capacity with living friends. When we consider that not less than 150 long passenger cars have been here to-day, some realising idea may be arrived at in regard to the number of our visitors.

The morning and irrenoon were used in re-moving the rubbish after being sufficiently

cooled, in order, if possible, to get the bodies known to be still under the ruins. Quite a number were get out. Two persons were taken out alive early in the morning.

A squad of conveners was organized, and the whole city laid out into small districts, the whole city laid out into amail districts, and a pretty thorough canvasa was entered into—the men going from house to house, thereby ascertaining in every family where persons were either wounded, missing or safe. The summing up shows that 162 are missing. This embraces all those known to have been which no tidings have been chained.

een obtained. It is admitted by those who have gone into the investigation, that fifty-two persons are yet immolated in the brick and mortar. One hundred and thirty dead bodies have been re-moved to the City Hall, or delivered to recog-

nizad frianda. The following is a list of the dead and miss-

Previous to the fire two sisters were together and comparatively unhurt. They would have been rescued. Hearing the roar of the flames, they exclaimed, "Oh, God, we have got to die." One woman shrieked out piteously that the

fire was burning her hair, but the fames soon aftersilenced her ery.

It has already been stated that one man cut his throat lest he should be burnt alive.

Mr. Branch told his friends who were digging for him, that he should resort to the same means to escape the tortures of the fire. He was persuaded to desist, and was fortunately saved.

The awful deaths that some died of by the fire, was fearfully attested by their baked and blackened forms when taken out, not in anything like those of human beings.
